Summary

I am a creative UI/UX Designer and Frontend Developer with over 3+ years of experience building digital products that look great and work even better. I specialize in bridging the gap between complex system engineering and intuitive user design. Whether I'm revamping a website for an ISP or managing a brand's entire social media presence, my goal is always the same: to create seamless digital experiences that drive real business growth.

Core Competencies

- Design: UI/UX Design, Wireframing, Prototyping, Website Revamps, Branding.
- Development: HTML5, CSS3, JavaScript, React, PHP, MySQL.
- Specialties: 3D Web Elements (Spline/Blender), Responsive Design, Digital Marketing.
- Tools: Figma, Adobe Creative Suite (Photoshop, After Effects), VS Code, Git.

Professional Experience

Rmax (Internet Service Provider) | Creative Manager & UI/UX Designer *Sept 2023 – Jan 2025*

Website Revamp: Led the end to end UI/UX redesign of the Rmax official website, focusing on simplifying customer plan discovery and modernizing the brand's digital identity.

Business Growth: Managed all business operations via social media, leveraging content creation and targeted posts to increase brand reach and lead generation.

Interactive Content: Designed high impact visual assets and social media campaigns that balanced creative flair with business objectives.

Project Oversight: Acted as the bridge between technical execution and creative direction to ensure a consistent user experience across all platforms.

Infosys | System Engineer *Sept 2021 – Sept 2023*

UI Development: Built responsive and high performance user interfaces for various web and mobile applications using modern frontend frameworks.

Technical Collaboration: Partnered with cross functional teams to integrate complex UI components with backend systems, ensuring stability and performance.

Performance Optimization: Cleaned and scaled code to improve website accessibility and speed, focusing on a "mobile-first" approach.

Problem Solving: Resolved complex technical bugs and implemented efficient coding solutions for large scale enterprise projects.

Project

ISP Website Transformation (Rmax) Modernized the digital interface for Rmax to boost conversion rates. I implemented an intuitive plan selection tool and redesigned the user dashboard to make service management easier for customers.

E-commerce Platform Clone Developed a full stack e-commerce interface, focusing on smooth user flows, clean code, and a conversion-centric design.

Education & Certifications

- B.Tech in Computer Science | **SRM University** | 2017 – 2021
- UI/UX Design Certification | **IBM** | Completed Dec 2024
- Fullstack PHP Core | **Rays IT Solution** | Grade: A, 2025

Skills

Programming: HTML, CSS, JavaScript, React, PHP, MySQL.

Applications: Figma, Photoshop, After Effects, Blender, Spline, XAMPP.

Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP).
